| Team Name            | Yahooligans!   |
| Members              | Bridget Murphy<br>Trevor Buck<br>Chase Dudas<br>Marissa Montano<br>Cort Sharp  |
| Description          | Love...the only thing you could ever need. Our project aims to connect scrum masters to other scrum masters through a website based matching system. The user creates a profile and gets matched with other users bases on simple preferences. |
| Vision Statement     | To bring an easy and efficient way to bring love into scrum master's lives.  |
| Motivation           | To be better than Christian mingle and farmersonly.com   |
| Risks                | Working environment<br>Time management<br>Lack of experience with front end (HTML/CSS)<br>Lack of web-based programming  |
| Risk Mitigation Plan | Learn HTML<br>Good communication over internet<br>Could also set up smaller meetings<br>Practice web-based programming<br>Seek help from TA and other sources<br>Utilize tools to make working efficient<br>Have a plan                        |
| Version Control      |    |

|                       |  |
|-----------------------|--|
| Development Method    | Agile/Scrum <ul style="list-style-type: none"> <li>• Group based</li> <li>• Recognize that we can all contribute in different ways</li> <li>• Proactive about what needs to be done when, Sprints</li> <li>• Timeframe based, provides motivation</li> <li>• Topic focused, list of things that need to be accomplished</li> <li>• Order tasks by importance</li> <li>• Set up a sprint and complete everything assigned for that sprint</li> </ul>                                |
| Collaboration Tool    | Slack<br>Github  |
| Proposed Architecture | Front-end <ul style="list-style-type: none"> <li>• HTML</li> <li>• CSS</li> </ul> Back-end <ul style="list-style-type: none"> <li>• SQL</li> </ul> Intermediate <ul style="list-style-type: none"> <li>• JavaScript</li> </ul> Tech <ul style="list-style-type: none"> <li>• Website</li> <li>• Cloud-based database</li> <li>• Domain/servers</li> <li>• Account setup</li> </ul> Communicate <ul style="list-style-type: none"> <li>• SQL -&gt; JavaScript -&gt; HTML</li> </ul> |
